THE AMERICAN SPEECH AND HEARING ASSOCIATION

The American Speech and Hearing Association is a professional and learned association with a current membership of 2233. Begun in 1925 as the American Academy of Speech Correction, the organization became the American Society for the Study of Disorders of Speech in 1927, the American Speech Correction Association in 1934, and assumed its present name in 1947. Formal annual conventions have been held since 1925, and membership records have been kept since 1926.

PURPOSE

'The purposes of this organization shall be to encourage basic scientific study of the processes of individual human speech and hearing, promote investigation of speech and hearing disorders, and foster improvement of therapeutic procedures with such disorders; to stimulate exchange of information among persons thus engaged, and to disseminate such information.' —— *By-Laws of ASHA, Article II.*

MEMBERSHIP

There are two classes of membership: Members (1602) are required to hold Bachelor's degrees or higher in the general area of the Association's interests; Associates (631) have no academic requirements. Members who have reached the age of 65 and have retired from active professional work may become Honorary Life Members. Members who have achieved unusual professional or scientific achievement may be elected to the Fellowship upon recommendation by the Committee on Honors.

Complete details on application for membership in the Association may be obtained by writing to the Secretary-Treasurer, George A. Kopp, Speech Clinic, Wayne University, Detroit, Michigan.

CLINICAL CERTIFICATION

The Association carries on a program of clinical certification for members who desire it. For these purposes, Speech and Hearing are regarded as separate areas. In each area two levels are defined: Basic and Advanced. A Basic Certificate indicates that the holder thereof is capable of performing general clinical duties under supervision and guidance; an Advanced Certificate indicates that he has demonstrated ability to conduct clinics, train others in the arts and skills of the profession and is a fully trained professional worker. A qualified Member may be certified in both areas, Speech and Hearing, although joint certificates are not issued. Such a Member may hold a Basic Certificate in one area and an Advanced Certificate in the other, or the levels may be the same.

Members who desire clinical certification should address the Chairman of the Committee on Clinical Certification, Eugene T. McDonald, Speech and Hearing Clinic, Pennsylvania State College, State College, Pennsylvania.

PUBLICATIONS

The Association publishes *The Journal of Speech and Hearing Disorders*, a quarterly which was issued first in 1936 as *The Journal of Speech Disorders*, and appeared under that title through Volume 12 for 1947. Monograph Supplements are published irregularly, and the Directory of Members is issued annually in September. All Association publications are distributed to Members and Associates. Non-members or institutions may subscribe to the *Journal of Speech and Hearing Disorders* at $3.50 per year in the United States, $4.00 per year outside the United States, and $1.00 per single copy. Subscriptions should be addressed to the Secretary-Treasurer.

CLINICAL CERTIFICATION

MEMBERS

'The Association defines two levels of clinical competence, Basic and Advanced, in each of the separate areas, speech and hearing. Any Member who so desires may apply for certification at either level in one or both areas; if in both, the levels of certification need not necessarily be the same. Upon review of his qualifications in light of the standards set by the Executive Council upon recommendation by the Committees on Clinical Standards in Speech and Clinical Standards in Hearing, the Committee on Clinical Certification will issue, with approval by the Executive Council, the certificate or certificates for which the Member qualifies. These certificates will be renewed annually as long as the individual remains a Member in good standing of the Association. Certification by the Association shall be considered as evidence of clinical competency.' - - *By-Laws of ASHA, Article IX.*

FELLOWS

'Fellowship is an honor which may be awarded to a Member in recognition of achievement in the directions indicated by the statement of the purposes of the Association as recorded in the By-Laws. It has no fixed requirements, and it may not be applied for or proposed by a Member for himself. It is not a class of membership, is not awarded to any arbitary percentage of the membership, and is not applicable to non-Members or Associates.

A Fellow shall have been active in the Association, as evidenced by publication in the *Journal*, appearance on the convention programs, or service on committees, and shall have a record of achievement, unquestionable and sustained, of one or more of the following types: (1) Original contributions to the advancement of knowledge; (2) distinguished educational, professional, or administrative activity; (3) outstanding service to the Association.' ——*Extract from the Report of the Committee on Honors, 1951.*
